The Guild of Machine Knitters Ltd

The Guild of Machine Knitters was launched on 5th March 1998, following research and efforts by Frank Dineen.

The Guild is run on an entirely voluntary basis by machine knitters for machine knitters and all those interested in the craft, present and future.

The aims are for the short, medium and long term promotion of the craft of machine knitting for the benefit of all – individual knitters, clubs, professional designers, manufacturers, suppliers etc.

The Guild operates a Buddy Scheme, whereby Guild members who request help etc. may be put in touch with other local members. If you would prefer NOT to be contacted, please notify the Membership Secretary by email or letter.

Please provide your email address so that Guild officials can contact you in this way if necessary.

Registered Office: The Guild of Machine Knitters Limited,
52 Park View Road, Heaton, Bradford, W Yorks BD9 4PW
Registered number: 5794316

The Guild of Machine Knitters

Membership application form and information

Aims of the Guild

To increase awareness of machine knitting as a craft.

To organise exhibitions by knitters for all those interested in the craft.

To encourage and maintain a high standard of craftsmanship.

To encourage a sense of awareness of texture, colour, design and fitness for purpose.

To foster these aims for individual knitters by the award of certificates for quality.

To spread knowledge by organising summer schools and seminars for all interested people.

To liaise with manufacturers and suppliers to ensure that all work together for the greater good of the craft.

To foster links between UK clubs as well as clubs overseas.

To ensure greater media awareness.

By doing all of these things and more, it is hoped to strengthen bonds between clubs, manufacturers and suppliers, thus ensuring that the craft continues strong and in good heart.

It is also important to gain recognition from the media and the general public that machine knitting is a genuine craft in its own right.
